

## 2011 Taipei Symposium & 7th IASC-ARS

Academia Sinica, Taipei, Taiwan

December 16th - 19<sup>th</sup>, 2011

ISBIS is participating in the Joint Meeting of 7th Conference of the Asian Regional Section of the International Association for Statistical Computing and 2011 Taipei International Statistical Symposium. Two invited paper sessions have been organised by ISBIS.

Professor Guoying Li, Academy of Mathematics and System Science, Chinese Academy of Sciences, has arranged the following session entitled "Reliability Evaluation":

Dan YU, Academy of Mathematics and System Science, Chinese Academy of Sciences,  
*Reliability evaluation and validation of complex systems based on components tests data.*

Yubin TIAN, Beijing Institute of Technology, *An Adaptive design to assess the reliability of the protechnic control subsystem*

Qingpei HU, Academy of Mathematics and System Science, Chinese Academy of Sciences,  
*Software reliability evaluation with non-homogeneous Poisson process models.*

Another session is being organised by Professor Sahm Kim, Department of Applied Statistics, Chung Ang University, Republic of Korea.
